III. RZH BLOCK GRANT PROGRAM DESCRIPTION

RZH Block Grant Program Intent

The RZH Grant Program is intended to meet the urgent need for safe, open, and accessible local park and recreational facilities for increased recreational opportunities that provide positive alternatives to social problems.

As a means of addressing these critical neighborhood park needs, the 2002 Bond Act provides \$186.7 million in funds to implement the RZH Program. \$155 million of these funds have been allocated as Block Grants. The Block Grant funds are allocated on a population-based formula to cities, counties and Districts that meet the definition of "District" found on page 2.

RZH grants shall be expended for high-priority Projects that satisfy the most urgent park and recreation needs, with emphasis on unmet needs in the most heavily populated and most economically disadvantaged areas within each Jurisdiction. RZH grants to cities, counties, and Districts are intended to supplement - not supplant - local expenditures for park and recreation facilities. They are not to diminish in any way the current efforts to provide park and recreation services.

The Bond Act encourages collaboration (partnerships) on Projects.

V. ADMINISTRATIVE PROVISIONS

Match Description

The grant funds cannot pay for more than 70% of the total Project costs and the Grantee must provide at least 30% of the total Project costs, unless the Match requirement is waived (see page 14). In essence, for every seven dollars of State funds, the Grantee must provide three dollars from Nonstate sources (3/7 of Project Grant Amount). The Project Grant Amount plus the required Match equals the total Project amount. Additional funds used to complete the entire project can come from any source.

- The RZH Program requires Grantees to supply Matching funds.
- The Match amount must be equal to at least 3/7 of the Project Grant Amount. Matching funds must come from non-state sources, and are divided in the following manner:
 - Match, either monetary or non-monetary, may come from either the Grantee's local resources, or from Private or Nonstate Sources, or a combination of both.
 - A Match of at least 1/7 of the Project Grant Amount must consist of contributions (monetary or non-monetary) from Private or Nonstate Sources, other than the Grantee's resources.
- Under certain circumstances, either the Private or Nonstate Match, or the entire 3/7 of the Project Grant Amount, can be waived (See page 14, Match Waiver Requirements).
- Any land used for a Match contribution must be acquired after the Appropriation date.
- The Grantee must use any Match contributions for the Project after the Appropriation date.

- At the Grantee's option, the entire Match can come from Private or other Nonstate sources (see page 13).

How to Calculate the Total Match

The total Match for a Project is calculated by doing the following:

- Divide the requested Project Grant Amount by 7.
- Multiply that amount by 3.

To calculate a Match for a \$250,000 Project Grant Amount, the following example is provided:

- Divide \$250,000 by 7 = \$35,714
- Multiply \$35,714 by 3 = \$107,143

The \$107,143 is the total amount of Match required for the \$250,000 Project Grant Amount.

Grantee's Local Match Resources

The Grantee's sources can include the following:

- Grantee money.
- Force Account labor (Grantee's employee labor).
- Lands, cash, or assets transferred to the Project from other local agencies.
- Federal funds.
- Private cash or land donations.
- Volunteer labor or services.
- Any combination of the above.

How to Calculate the Private or Nonstate Match

The Private or Nonstate Match for a Project Grant Amount is calculated by doing the following:

- Divide the requested Project Grant Amount by 7.

To calculate the Private or Nonstate Match for a \$250,000 Project Grant Amount the following example is provided:

- Divide the \$250,000 by 7 = \$35,714.

The \$35,714 is the total amount of Private or Nonstate Match for the Project Grant Amount.

Private or Nonstate Match Sources (1/7)

Private or Nonstate Matching sources can include the following:

- Funds from local public agencies other than the Grantee.
- Cash donations.
- Land donations.
- Gifts of real property.

- Equipment and consumable supplies from sources other than the Grantee.
- Volunteer labor or services.
- Free or reduced-cost use of lands from sources other than the Grantee.
- Facilities or equipment from sources other than the Grantee.
- Bequests and earnings from wills, estates, and trusts.
- Federal funds.

Calculating Volunteer Labor as a Match Source

Volunteer labor is an eligible Match source. To determine the Match, the hours worked must be multiplied times the prevailing wage, plus benefits, for the type of labor that was done.

The prevailing wage applied to volunteer labor must:

- Reflect the work that was actually done (i.e. journey-level carpenter versus carpenter's helper)
- Reflect differences in wages based on location
- Be reasonable (e.g. for a first-time carpenter's helper, use entry level wages)
- Be defensible. The simplest and most defensible way is to use minimum wage for all volunteer work.

Grantees can also use prevailing wage scales developed by governmental agencies, labor unions, or other organizations that research and publish prevailing wages. One of the governmental sources is the California Employment Development Department (EDD). EDD maintains hourly and annual wage data for 770 occupations for every geographic area of the state.

Match Waiver Requirements

Waiver Conditions for Private or Nonstate Match

A Grantee may request a waiver of the private or nonstate Match (1/7). If the waiver is granted, the Grantee will not be required to certify that the Match is from private or nonstate sources. **However, even with the waiver of the private or nonstate Match, the Grantee is still responsible for the entire 3/7 Match of the State Grant Amount.**

The request for waiver must include a signed statement from the Grantee indicating that they currently have the entire 3/7 Match of the State Grant Amount available in other eligible matching funds, and that either:

- A. The Project is located in an area where private financial resources are limited.

or

- B. The Project is not of a type likely to attract private funds. This includes, but is not limited to, Projects replacing existing support facilities (restrooms, parking, irrigation systems, water supply, drainage), new

Development site preparation (grading, utility, fencing), and Acquisition Projects such as in-holdings, easements, and boundary adjustments.

The Grantee must submit the request for waiver to the Department at the same time that they submit the Project Application.

Waiver Conditions for Entire 3/7 Match of the Project Grant Amount

A Grantee may request a waiver of the entire 3/7 Match of the Project Grant Amount. Local Matching money shall not be required for a Grantee that has urgent unmet needs for recreational lands or facilities, and that lacks the financial resources to acquire or develop recreational lands or facilities. The Grantee must submit a Match waiver request signed by the authorized representative at the same time the Grantee submits the Project Application.

Grantee's Match waiver request must include a statement that discusses the following:

1. The level of urgent, unmet needs for recreational lands and facilities; and
2. The lack of financial resources to acquire or develop recreational lands or facilities.

The Department will consider the information requested below in its evaluation of the items above. Please submit a statement discussing the following items and provide supporting documentation:

1. The average per capita income in the Grantee's Jurisdiction.
2. The unemployment rate in the Grantee's Jurisdiction.
3. Crime statistics in the Grantee's Jurisdiction based on California Department of Justice data during the last three years.
4. The Grantee's Jurisdiction has been affected by recent history of plant or business closures.

Land Tenure Requirements

For Development Projects, the Applicant must certify to the Department that they have adequate tenure to, and site control of, properties to be improved.

Tenure includes, but is not limited to:

- Ownership
- Lease
- Easement
- Joint powers or similar agreement

Adequate site control is the power or authority to:

- Manage, direct, superintend, restrict, regulate, govern, administer, or oversee a plot of ground suitable or set apart for some specific recreational use.

For property not owned in fee simple, tenure must include a level of site control commensurate with the activities proposed in the Project Scope section of the Application Form.

The Department requires that the Grantee agree to use the property for public recreation for the length of time stated below. The land tenure agreement only applies if the Grantee does not have fee title. All less than fee title agreements must have a renewal clause. A lease or other agreement can only be revocable by mutual consent or for cause.

- Grants up to and including \$100,000 require at least 10 years of land tenure and public recreation operation.
- Grants exceeding \$100,000 require at least 20 years of land tenure and public recreation operation

If the Project is selected for funding, the Grantee shall:

1. Use the property only for the purpose for which the grant was made and to make no other use, sale or other disposition of the property, except as authorized by a specific act of the Legislature.
2. Maintain and operate the property funded for a period that is commensurate with the type of Project and the proportion of state funds and local Matching funds or property allocated to the capital costs of the Project.

The Department recognizes that specific recreation activities may change over time; however, the property must remain available for public recreation use.

Quimby Fees

Real property, cash, or other assets required to be transferred to a public agency pursuant to Section 66477 of the Government Code, or any other provision of law, shall not qualify as funds from a private or nonstate source. However, they do qualify as Match furnished by the Grantee.

Agricultural Land Issues

Grant Applicants must do the following prior to acquiring either agricultural lands, or any other lands the Acquisition of which may have an adverse economic impact on neighboring agricultural operations:

- Hold a public hearing in the County in which the proposed Project is located, at which the public may comment on the proposed Project.
- Ensure that a hearing notice is published at least twice in a newspaper of general circulation in the County.

Applicants must attach documentation to their Application to substantiate that they completed these requirements.

Changes to Project Scope

A Grantee wishing to change the Project Scope of an approved Project shall submit any changes to the original Project Scope in writing to the Department for prior approval.

Project Withdrawals

The Grantee may rescind the Project at any time. The Grantee shall submit a written request to the Department to rescind the Project.

Loss of Funding

The following actions may result in a Grantee's loss of funding:

- A Grantee fails to obtain a Contract within three years of Appropriation of program funds.
- A Grantee withdraws from the grant program
- A Grantee fails to complete the Project and/or fails to submit all documentation within eight years from the Appropriation date of program funds

Public Access

The Grantee shall provide for public access to the Project lands and/or facilities in accordance with the intent and provisions of the enabling legislation and/or program.

Pass-Through Funding

- If the Applicant intends to transfer funds to another eligible entity, the agency that relinquishes the funds submits to the State a resolution from the governing body using the required language in the existing resolution that declares the funds are transferred, identifies the recipient, and identifies the funding amount.
- The eligible recipient submits to the State a resolution that declares their acceptance of the funds from the donor, and identifies the funding amount.

B. Project Execution

1. Subject to the availability of grant monies in the Act, the State hereby grants to the Grantee a sum of money (grant monies) not to exceed the amount stated on page 1 of this Contract, in consideration of, and on condition that, the sum be expended in carrying out the purposes as set forth in the Description of Project on page 1 of this Contract, and under the terms and conditions set forth in this Contract.

Grantee agrees to furnish at least thirty (30) percent of the total cost of the Project unless waived per the procedures stated in the current State Procedural Guide for the Roberti-Z'berg-Harris Urban Open Space and Recreation Program Act and shall assume any obligation to furnish any additional funds that may be necessary to complete the Project. Any modification or alteration in the Project as set forth in the Application on file with the State must be submitted to the State for approval.

2. The Grantee shall complete the Project in accordance with the time of Project Performance set forth on page 1, and under the terms and conditions of this Contract.
3. The Grantee shall comply as lead agency with the California Environmental Quality Act (Public Resources Code, Section 21000, et. seq., Title 14, California Code of Regulations, Section 15000 et. seq.)
4. The Grantee shall comply with all applicable current laws and regulations affecting Development Projects, including, but not limited to, legal requirements for construction contracts, building codes, health and safety codes, and laws and codes pertaining to individuals with disabilities.

5. The Grantee shall permit periodic site visits, including a final inspection upon Project completion by the State, to determine if Development work is in accordance with the approved Project Scope.
6. Prior to the commencement of any work, the Grantee agrees to submit any significant deviation from the original Project Scope in writing to the State for prior approval. Changes in the Project Scope must be approved in writing by the State and must meet the exact need described in the original Project Application.
7. If the Project includes Acquisition of real property, the Grantee agrees to comply with all applicable state and local laws or ordinances affecting relocation and real property Acquisition.
8. The Grantee shall provide for public access to Project facilities in accordance with the intent and provisions of the enabling legislation and/or Program.
9. Grantees shall have (1) fee title, (2) lease hold or (3) other interest to the Project lands and demonstrate to the satisfaction of the State that the proposed Project will provide public benefits that are commensurate with the type and duration of the interest in land, as determined by the State, that is held by the Grantee.
10. The Grantee shall maintain and operate the property funded for a period that is commensurate with the type of Project and the proportion of state funds allocated to the capital costs of the Project. With the approval of the State, the Grantee, or the Grantee's successor in interest in the property, may transfer the responsibility to maintain and operate the property in accordance with this section. The Grantee shall use the property only for the purposes for which the grant was made and shall make no other use or sale or other disposition of the property, except as authorized by specific Act of the Legislature. The agreements specified in this section shall not prevent the transfer of the property from the Grantee to a public agency, if the successor public agency assumes the obligations imposed by those agreements. If the use of the property is changed to a use that is not permitted by the category from which the grant funds were appropriated, or if the property is sold or otherwise disposed of, an amount equal to (1) the amount of the grant, (2) the fair market value of the real property, or (3) the proceeds from the sale or other disposition, whichever is greater, shall be used by the Grantee for a purpose authorized by that category, pursuant to agreement with the State as specified in this section, or shall be reimbursed to the fund and be available for Appropriation by the Legislature only for a purpose authorized by that category. If the property sold or otherwise disposed of is less than the entire interest in the property funded with the grant, an amount equal to either the proceeds from the sale or other disposition of the interest or the fair market value of the interest sold or otherwise disposed of, whichever is greater, shall be used by the Grantee for a purpose authorized by the category from which the funds were appropriated, pursuant to agreement with the State as specified in this section, or shall be reimbursed to the fund and be available for Appropriation by the Legislature only for a use authorized by that category.
11. Lands or interests in land acquired with grant funds shall be acquired from a willing seller.
12. The Application shall be accompanied by certification from the Grantee's planning agency that the Project for which the grant is requested is consistent with the Park and Recreation element of the applicable city or county general plan, the District park and recreation plan, or appropriate planning document, as the case may be and will satisfy a high priority need.

C. Project Costs

The Grant monies to be provided to the Grantee under this Contract may be disbursed as follows:

1. If the Project includes Acquisition of real property, the State may disburse to the Grantee the grant monies as follows, but not to exceed, in any event, the total State grant amount set forth on page 1 of this Contract:
 - a. Up to a 10% advance of the total Project Amount
 - b. After the property is in escrow, the Grantee may request up to 80% of the total Project Grant Amount as specified in the approved Application, or 100% of the actual Acquisition cost, whichever is less. The Grantee shall immediately place these funds in escrow.
 - c. The remaining Project grant funds shall be paid up to the amount of the grant or the actual Project cost, whichever is less, on completion of the Project and receipt of a detailed summary of Project costs from the Grantee.
2. If the Project includes Development, the State may disburse to the Grantee the grant monies as follows, but not to exceed in any event the total Project Grant Amount set forth on page 1 of this Contract:
 - a. Up to a 10% advance of the total Project Grant amount.
 - b. On proof of award of a construction contract or commencement of construction by Force Account, up to 80% of the total Project Grant Amount, not to exceed 80% of the total dollar amount of any or all awarded construction contracts.
 - c. The remaining Project grant funds shall be paid up to the amount of the grant or the actual Project cost, whichever is less, on completion of the Project and receipt of a detailed summary of Project costs from the Grantee.

D. Project Administration

1. The Grantee shall promptly submit written Project reports as the State may request. In any event, the Grantee shall provide the State a report showing total final Project expenditures.
2. The Grantee shall make property and facilities developed pursuant to this Contract available for inspection upon request by the State.
3. The Grantee shall use any monies advanced by the State under the terms of this Contract solely for the Project herein described.
4. If grant monies are advanced, the Grantee shall place these monies in a separate interest bearing account, setting up and identifying such account prior to the advance. Interest earned on grant monies shall be used on the Project, as approved by the State. If grant monies are advanced and not expended, the unused portion of the grant shall be returned to the State within 60 days of completion of the Project or end of the Project Performance Period, as shown on the signature page, whichever is earlier.
5. The Grantee shall use income earned by the Grantee from use of the Project to further Project purposes, or, if approved by the State, for related purposes within the Grantee's Jurisdiction.

E. Project Termination

1. Any Grant funds that have not been expended by the Grantee shall revert to the fund and be available for Appropriation by the Legislature for one or more of the local assistance programs that the Legislature determines to be the highest priority statewide.

2. The Grantee may unilaterally rescind this Contract at any time prior to the commencement of the Project. After Project commencement this Contract may be rescinded, modified or amended only by mutual agreement in writing between the Grantee and the State.
3. Failure by the Grantee to comply with the terms of this Contract or any other Contract under the Act may be cause for suspension of all obligations of the State hereunder. However, such failure shall not be cause for the suspension of all obligations of the State hereunder if in the judgment of the State such failure was due to no fault of the Grantee. In such case, any amount required to settle at minimum cost any irrevocable obligations properly incurred shall be eligible for reimbursement under this Contract.
4. Because the benefit to be derived by the State, from the full compliance by the Grantee with the terms of this Contract, is the Preservation, protection and net increase in the quantity and quality of parks, public recreation facilities and/or Historical Resources available to the people of the State of California and because such benefit exceeds to an immeasurable and unascertainable extent, the amount of money furnished by the State by way of grant monies under the provisions of this Contract, the Grantee agrees that payment by the Grantee to the State of an amount equal to the amount of the grant monies disbursed under this Contract by the State would be inadequate compensation to the State for any breach by the Grantee of this Contract. The Grantee further agrees therefore, that the appropriate remedy in the event of a breach by the Grantee of this Contract shall be the specific performance of this Contract, unless otherwise agreed to by the State.
5. The Grantee and the State agree that if the Project includes Development, final payment may not be made until the Project conforms substantially to this Contract.

F. Hold Harmless

1. The Grantee shall waive all claims and recourse against the State including the right to contribution for loss or damage to persons or property arising from, growing out of or in any way connected with or incident to this Contract except claims arising from the concurrent or sole negligence of the State, its officers, agents, and employees.
2. The Grantee shall indemnify, hold harmless and defend the State, its officers, agents and employees against any and all claims, demands, damages, costs, expenses or liability costs arising out of the Acquisition, Development, construction, operation or maintenance of the property described as the Project which claims, demands or causes of action arise under Government Code Section 895.2 or otherwise except for liability arising out of the concurrent or sole negligence of the State, its officers, agents, or employees.
3. The Grantee agrees that in the event the State is named as codefendant under the provisions of Government Code Section 895 et. seq., the Grantee shall notify the State of such fact and shall represent the State in the legal action unless the State undertakes to represent itself as codefendant in such legal action in which event the State shall bear its own litigation costs, expenses, and attorney's fees.
4. The Grantee and the State agree that in the event of judgment entered against the State and the Grantee because of the concurrent negligence of the State and the Grantee, their officers, agents, or employees, an apportionment of liability to pay such judgment shall be made by a court of competent Jurisdiction. Neither party shall request a jury apportionment.
5. The Grantee shall indemnify, hold harmless and defend the State, its officers, agents and employees against any and all claims, demands, costs, expenses or liability costs arising out of legal actions pursuant to items to which the Grantee has certified. The Grantee acknowledges that it is solely responsible for compliance with items to which it has certified.

G. Financial Records

1. The Grantee shall maintain satisfactory financial accounts, documents and records for the Project and to make them available to the State for auditing at reasonable times. The Grantee also agrees to retain such financial accounts, documents and records for three years following Project termination or final payment.

The Grantee and the State agree that during regular office hours each of the parties hereto and their duly authorized representatives shall have the right to inspect and make copies of any books, records or reports of the other party pertaining to this Contract or matters related thereto. The Grantee shall maintain and make available for inspection by the State accurate records of all of its costs, disbursements and receipts with respect to its activities under this Contract.

2. The Grantee shall use a generally accepted accounting system.

2. The Grantee shall maintain and operate the property developed for a period commensurate with the type of Project and the proportion of State grant funds and local funds allocated to the capital costs of the Project, as determined by the State.

I. Nondiscrimination

1. The Grantee shall not discriminate against any person on the basis of sex, race, color, national origin, age, religion, ancestry, sexual orientation, or disability in the use of any property or facility developed pursuant to this Contract.
2. The Grantee shall not discriminate against any person on the basis of residence except to the extent that reasonable differences in admission or other fees may be maintained on the basis of residence and pursuant to law.
3. All facilities shall be open to members of the public generally, except as noted under the special provisions of this Project Contract or under provisions of the enabling legislation and/or Program.

J. Application Incorporation

The Application and any subsequent change or addition approved by the State is hereby incorporated in this Contract as though set forth in full in this Contract.

K. Severability

If any provision of this Contract or the Application thereof is held invalid, that invalidity shall not affect other provisions or Applications of the Contract which can be given effect without the invalid provision or Application, and to this end the provisions of this Contract are severable.
